Ernie:

delighted to verify your reception of the KVNU NRC test, on November 14, 1977 at 1:02 am MST. The details you noted are accurate.

Perhaps we can arrange something in the future for you mid-westerners when DAF is silent. I don't think there's ever any releif from WIP. Maybe you'll hear us, something during our regular MM maintenance period. Good luck on the Dec. 19 test and in all your DX endeavors.
